Company Experience and Projects

Future Energy Trading and Exchange Dynamics (FUENTE Dynamics) is a private company originally founded in Kosovo in 2016, and later with branches in Albania, North Macedonia, and Austria. Our main focus is cross-border trade and supply to end consumers with electricity.

Fuente Dynamics is already recognized as an active participant in long-term and short-term trading in the electricity market in Kosovo, Albania, North Macedonia, and Montenegro, and has excellent relations with all regulatory bodies and transmission system operators.

With a team of specialists with experience in the field of renewable energy, FUENTE Dynamics also offers not only professional consultancy regarding the development of projects for the construction of generating assets but also partnerships in joint investments in this field.
