Company Experience and Projects

Founded in 2017 in SEE and the United States, Sentry provides top-notch cybersecurity services. Their team includes specialized engineers, military personnel, Navy SEALs, and cybersecurity academics. By staying updated on threats, Sentry enhances clients' cybersecurity, reducing the risk of attacks.

Services offered:

- Penetration Testing
- Vulnerability Assessment
- Security Audits and Compliance
- Incident Response and Forensics
- Managed Security Services
- Threat Intelligence
- Secure Code Review
- Infrastructure and Cloud Security
- Mobile Application Security

Serving international clients, including Fortune 500 companies and startups, Sentry is a trusted partner in robust security, safeguarding digital assets and infrastructure.
